

The Most Excellent Way

Love

Our vision: helping people to overcome sinful dependences through faith in Jesus Christ.

Our principles: program of rehabilitation "The Most Excellent Way" is a way to teach people to live according to Christian principles. It founded only on Word of God (Bible).

Our aims: to render effective help to the people in need through the special supporting meetings in the city.

To develop the work in Christian Charity Centers where people can learn how to change their selfish character and overcome difficulties with Word of God.

To help local churches in their social work with "The Most Excellent Way" program.

To create and to spread printed (or other) materials that can help people to believe that deliverance from sinful dependences is possible.
